TECHNICAL SKILLS

Programming Languages
Java | JavaScript

Frameworks
Spring Boot | VueJS | ReactJs

Web Development
HTML | CSS

Database
MySQL | MongoDB

IDE
Visual Studio | IntelliJ Idea

EXPERIENCE

Intern Software Engineer Vizuamatix

03/2023 – 09/2023

I collaborated with a team to develop and enhance a Tourism Industry Portal using Vue.js and Vuetify for the frontend, in combination with FastAPI for the backend. My primary role involved participating in code reviews, identifying and resolving software defects, and ensuring the system met project requirements. In addition to my technical contributions, I actively demonstrated my strong teamwork skills by fostering effective communication and cooperation among team members.

Key Achievements and Responsibilities:

- Focused on identifying and resolving software bugs to enhance the application's reliability and performance.
- Collaborated with the development team to ensure a smooth and error-free user experience.
- Contributed to creating a responsive and user-friendly frontend interface.
- Implemented API integration for seamless data retrieval and submission, bridging the gap between the frontend and backend services.

EDUCATION

Bachelor of Computer Science

Eastern University, Trincomalee Campus (2019–2023)
GPA – 3.84

G.C.E. Advanced Level

St. Mary's College, Kegalle (2017)
Physics – B ,Chemistry – C ,Combined Maths – C

PROJECTS

Team Manager Web App

Technologies – Spring Boot, VueJs , Vuetify , Spring Security

description – user login with JWT security, add update delete projects and tasks, mark completed tasks
https://github.com/kasunAththanagoda/Team_Managm ent_App_frontend.git
https://github.com/kasunAththanagoda/Team_Managm ent_Backend.git

To-Do-List App

Technologies – Java , JavaFx

description – add update, delete tasks
<https://github.com/kasunAththanagoda/To-Do-list.git>

Ipl Dashboard Web App

Technologies – React ,Spring Boot

description – batch data processing, show details of different teams
https://github.com/kasunAththanagoda/IPL_Dashboar d.git

spring security implementation for user login with JWT authentication

Technologies – Spring Boot, Spring Security, JWT

description – login api with JWT security
https://github.com/kasunAththanagoda/spring_securi ty_2.git

Point of Sale backend

Technologies – Spring Boot

description – CRUD operation api's
https://github.com/kasunAththanagoda/pointOfSale_ springboot_backend.git

Enhanced Advertising Using Age and Gender Recognition (Final year project – currently working on)

Technologies – Python , Django , React

description – advertisement suggestion system based on video feed
<https://github.com/kasunAththanagoda/Enhanced- Advertising-Project-Frontend.git>

I hereby certify that the above particulars furnished by me, are true and accurate to the best of my knowledge.
